

SimaPro Expert

SimaPro Expert is designed for the LCA expert who needs powerful modeling and assessment features. This version allows you to model detailed LCA studies, with advanced analytical features such as process and project parameters and Monte Carlo analysis. Import and export your data in different formats.

Scenarios with parameters

Build scenarios with process and project parameters. Using these parameters in your model simplifies your work and gives you the flexibility to easily change values or assumptions in your model.

Advanced modeling

SimaPro Expert plan supports advanced modeling with process and project parameters, scenario analysis and uncertainty calculation with Monte Carlo simulation. Furthermore, you can gain insight into unit processes and the allocation of multiple output processes, conduct a weak-point analysis and model complex waste treatment systems.

Multi-user option

SimaPro's multi-user feature is unique among LCA software solutions. It allows multiple people to work on the same project simultaneously, in one shared central database. Collaborate with your colleagues in real time, even when they are working in different offices or even different countries.

Created for the users who need powerful modeling and analysis features

Robust, flexible and transparent LCA with SimaPro desktop software

- Advanced product life cycle modeling with product stages
- Wide range of impact assessment methods included
- Inventory and Input/output databases included
- Interactive results analysis on graphs and tables
- Analysis of groups
- Save inventory data as system processes
- Library switch
- Interactive network view
- Import data (.csv and SimaPro format)
- Export data (.xlsx and .txt format)
- Export data (.csv and SimaPro format)
- Import and export of EcoSpold 1 data
- Export of ILCD Data
- Edit system descriptions
- Interactive tree view
- Parameters (scenario analysis)
- Monte Carlo analysis
- Export to matrix
- Copy chart to Excel
- Multi-user version with shared database, incl. user management

Create graphs and tables with Report Maker

Save time on creating LCA reports. With Report Maker, you can create graphs and tables in MS Word and MS Excel, and they will be automatically updated as you change your model and data in SimaPro. You can also use Report Maker in combination with the 'Import Scenarios' feature which can help to generate the data for your Environmental Product Declarations (EPDs) or other recurring reports.

Experience the full potential of SimaPro

This one-year subscription plan includes access to the SimaPro software, Report Maker add-on, technical support, and various databases including an ecoinvent v3 database license. If you wish to have a license without ecoinvent database, please contact us for a quote.
