# SimaPro Power

SimaPro Power is the most comprehensive SimaPro version. Designed for the expert LCA practitioners and researchers, it contains advanced features such as direct Excel/ASP linking, and its COM interfacing allows you to create dedicated LCA tools.
Scenarios with parameters

Build scenarios with process and project parameters. Using these parameters in your model simplifies your work and gives you the flexibility to easily change values or assumptions in your model.

Advanced modeling

Build complex, yet transparent LCA models with SimaPro. You can model from a life cycle perspective with uncertainty calculation, process and project parameters, insight in unit processes, allocation of multiple output processes, weak-point analysis and complex waste treatment. The parse feature allows you to import parameter sets from Excel, saving you a lot of work.

Multi-user option

SimaPro's multi-user feature is unique among LCA software solutions. It allows multiple people to work on the same project simultaneously, in one shared central database. Collaborate with your colleagues in real time, even when they are working in different offices or even different countries.

Advanced modeling and assessment features for comprehensive LCA studies

Robust, flexible and transparent LCA with **SimaPro desktop software**

- Advanced product life cycle modeling with product stages
- Wide range of impact assessment methods included
- Inventory and Input/output databases included
- Interactive results analysis on graphs and tables
- Analysis of groups
- Save inventory data as system processes
- Library switch

- Interactive network view
- Import data (.csv and SimaPro format)
- Export data (.xlsx and .txt format)
- Export data (.csv and SimaPro format)
- Import and export of EcoSpold 1 data
- Export of ILCD Data
- Edit system descriptions
- Interactive tree view
- Parameters (scenario analysis)
- Monte Carlo analysis

- Export to matrix
- Copy chart to Excel
- Multi-user version with shared database, incl. user management
- Hide confidential data
- Wizard development
- Two-way COM interface
- Direct link from inventory to Excel and SQL database
- Excel scenario calculator

Create graphs and tables with Report Maker

Save time on creating LCA reports. With Report Maker, you can create graphs and tables in MS Word and MS Excel, and they will be automatically updated as you change your model and data in SimaPro. You can also use Report Maker in combination with the 'Import Scenarios' feature which can help to generate the data for your Environmental Product Declarations (EPDs) or other recurring reports.

SimaPro

SimaPro Power

Experience the full potential of SimaPro

This one-year subscription plan includes access to the SimaPro desktop software, Report Maker add-on, technical support, and various databases including an ecoinvent v3 database license.
If you wish to have a license without ecoinvent database, please contact us for a quote.

SimaPro Power plan	First user	Extra user
Subscription (12 months)	**€ 7,564**	**€ 6,047**

Pricing conditions
- Prices are valid until December 31, 2024.
- Read and accept the license agreements for SimaPro, ecoinvent and Agri-footprint before you order.
- Prices for multiple users are available on request.
- If you want to upgrade to another SimaPro license, please contact your reseller for a tailored quote.
- The price for a new SimaPro license includes an ecoinvent v3 database license.
